

Heliostat

The sunlight factory

Heliostaat.nl

Solar lamp system

You can have solar light in your living room! The Suntrack solar reflector can keep the sun in your house and hold the sun reflection all day there. You can use the solar tracker to point at solar panels for more efficiency or build a custom system using our controller to improve your solar panels with a solar tracking system. Even an array of multiple systems is possible.

SUNTRACK

Extremely accurate

No sensors

24h/365 operational

LCD for information

- Easy installation
- Low maintenance
- Low power
- HF remote control

€489,-
